Your sponsorship has immediate impact in our community.

Cascadia takes on some of Portland's toughest issues – families facing eviction, chronic homelessness, and serious mental health and addiction challenges. Our 900+ team members have a shared dedication to provide personal, compassionate care for 16,000 people of all ages each year.

Driven to improve the quality of life for all Oregonians, Cascadia has embarked on the development of a one-of-a-kind, community-centered campus (due to open late spring 2018) that will be home to Portland's new Garlington Health Center clinic providing onsite mental health services, substance use recovery, primary care, and wellness classes to serve our community's most vulnerable members. The campus will also be home to Garlington Place, a 52-unit apartment building to address our community's pressing need for safe, affordable housing.

Join us for our second annual [A CULTURE OF CARING GALA](#) on Thursday, April 5, 2018 and help us reach our goal to open Cascadia's Garlington Campus in NE Portland. We believe that when we work together to understand and care for each other that we build a healthier, thriving community. Our approach to providing whole health care embodies this and builds on the idea that caring for the whole person is caring for the whole community. Thank you for being part of [A CULTURE OF CARING](#).
